1% Stamp duty	\$...
Number plate	\$56
Freight from Melbourne	
+ pre-delivery charge	\$330

## What scooter to buy?

50cc scooters are speed limited by law. These scooters are best suited for local suburban travel on 40, 50, and 60 km/h speed limited roads and the congested inner city.

125cc–150cc scooters are better suited for Canberra traffic with continuous travel on 80km/h roads.

200cc scooters are best suited for; local travel plus continuous travel on 100km/h roads and brief commutes on 110km/h speed-limited roads.

250/300cc scooters are suited for local travel and continuous travel on 110km/h roads.

Over 300cc scooters are better suited for highway travel on 110km/h roads. Extra power provides more relaxed highway riding and overtaking abilities, especially with a pillion passenger.

### Opening hours:

The showroom is open Tuesday to Saturday from 9 to 5. Entrance is at 10 Botany Street Phillip.

The workshop entrance is from Grenville Court, and scooters in for service can be dropped off from 8:15am.

**VESPA** is the most recognizable scooter name and shape in the world. With the 946 and some other models still made in the PIAGGIO factory at Pontedera near Pisa in Italy, this premium scooter is made with high end components and with the strictest attention to quality control.

**PIAGGIO** The Piaggio group makes scooters for all niches and requirements. From entry level scooters from their factory in China, many scooters from their new production facilities in Vietnam, and other touring scooters and from Italy. Piaggio is Europe's biggest scooter manufacturer and innovator.

**SYM** Taiwan's premium scooter manufacturer; the scooters from the Taiwanese plant have a 4 year 40,000 km warranty. The factory was set up by Honda over 50 years ago, and now produces over 600,000 scooters a year.

### About Motorini

"Motorini scooters and 'cycles" is Canberra's only scooter specialist. Opened in 1997, we are the only agent in the region for the world famous Vespa scooter.

We have a large range of new and used scooters in the showroom and our workshop is 1<sup>st</sup> class; ready to service or repair your scooter.

## Scooter licensing

- ACT, NSW & Victorian residents need a motorcycle license to ride any motor scooter with any size engine.
- To get a motorcycle license you need to book a training course with Stay Upright on 6297 1144, or [stayupright.com.au](http://stayupright.com.au). (NSW riders book through the RTA)
- Stay Upright provide a bike and riding gear (helmet & gloves) for the course.
- People can request one of the automatic scooters on site when booking their training course, this makes for an easier nine hours.
- After the training course is completed then the ACT Government issues a learners permit valid for 1 year. (3 months minimum riding before you can do a test to get your P-provisional license).
