+ pre-delivery charge \$350

What scooter to buy?

50cc scooters are speed limited by law. These scooters are best suited for local suburban travel on 40, 50, and 60 km/h speed limited roads and the congested inner city.

125cc–150cc scooters are better suited for Canberra traffic with travel on 80km per hour roads.

Over 150cc scooters are better suited for; local travel plus travel on 100km/h roads like the Tuggeranong parkway.

250/300cc scooters are suited for local travel and travel on 110km/h roads.

Over 300cc scooters are better suited for highway travel on 110km/h roads. Extra power provides more relaxed highway riding and overtaking abilities, especially with a pillion passenger.

Opening hours:

Showroom
Tuesday to Friday; 8:15 to 5:15pm
Saturday; 8:15 to 4pm
Workshop
The workshop entrance is from Grenville Court, and scooters in for service can be dropped off from 8:00am.

VESPA is the most recognizable scooter name and shape in the world. This premium scooter is made with high end components and with the strictest attention to quality control. Australian scooters are delivered from Italy and the newest production facilities in Vietnam.

PIAGGIO The Piaggio group makes scooters for all niches and requirements. They are built in factories in China, India, Vietnam, and Italy. Piaggio is Europe's biggest scooter manufacturer and innovator.

SYM Taiwan's premium scooter manufacturer; the scooters from the Taiwanese plant have a four-year 40,000 km warranty. The factory was set up by Honda over 50 years ago, and now produces over 600,000 scooters a year.

About Motorini

Motorini scooters is Canberra's only scooter specialist. Opened in 1997, we are the only agent in the region for the world famous Vespa scooter.

We have a large range of new and used scooters in the showroom and our workshop is 1st class; ready to service or repair your scooter.

Scooter licensing

- ACT, NSW & Victorian residents need a motorcycle license to ride any motor scooter with any size engine.
- To get a motorcycle license you need to book a training course on 1300 366 640 or 6297 1144. Or book on-line at stayupright.com.au (NSW people book through the RTA)
- Training companies provide a bike or scooter and limited riding gear (helmet & gloves) for the course.
- People can request one of the automatic scooters on site when booking their training course, this makes for an easier nine hours.
- After the training course is completed the ACT Government issues a learner's permit valid for 1 year. (3 months minimum riding before you can do a test to get your P-provisional license). **1 days training, ride the next day!**
